Did you know that you could help prepare tomorrows leaders just by shopping at Amazon.com?
The Express H.O.M.E. Program works with hundreds of high school students each year.
We are preparing them to be educated, giving, productive adults and leaders in their own communities.
These students bring a new meaning to community service while giving back
gives them a real sense of belonging.

This is a very unique leadership approach that has been working for us in Georgia since 2001.
